RULES

1. The market has two sellers - seller CIRCLE and seller SQUARE, and three buyers - buyer GREEN, BLUE and RED.
2. The two sellers offer binding prices between 0.00 and 100.00 rilling.
3. Buyer BLUE is informed about these prices.
4. Buyer GREEN and buyer RED are not informed about the prices of the sellers.
5. All buyers make their purchase decisions.
6. Buyer GREEN and buyer RED automats that flips a fair coin in order to determine which seller to purchase from.
7. Each seller has three units to offer.
8. Finally profit is distributed and the period ends.
   * The profit of a seller equals the price times the number of units sold.
   * The profit of a buyer that buys a unit equals 100.00 rilling minus the price paid.
You are: seller SQUARE

The sellers offers sell at prices (including):

| CIRCLE | 10.00 |
| SQUARE | 12.00 |
