Software eats solar

Value to customers

Value to customers

- Trusted platform for quality solar purchase
- Easy to use self serve solution
- Financing options included

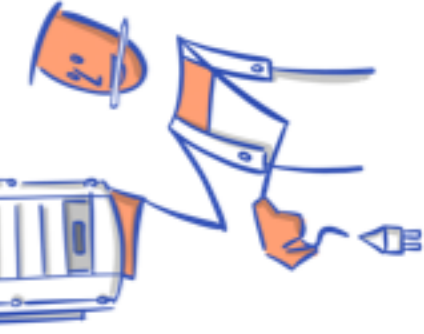

Value to installers

- No sales effort required
- Consistent flow of new business
- Customer communication on platform

- No sales effort required
- Consistent flow of new business
- Customer communication on platform

Value to financiers

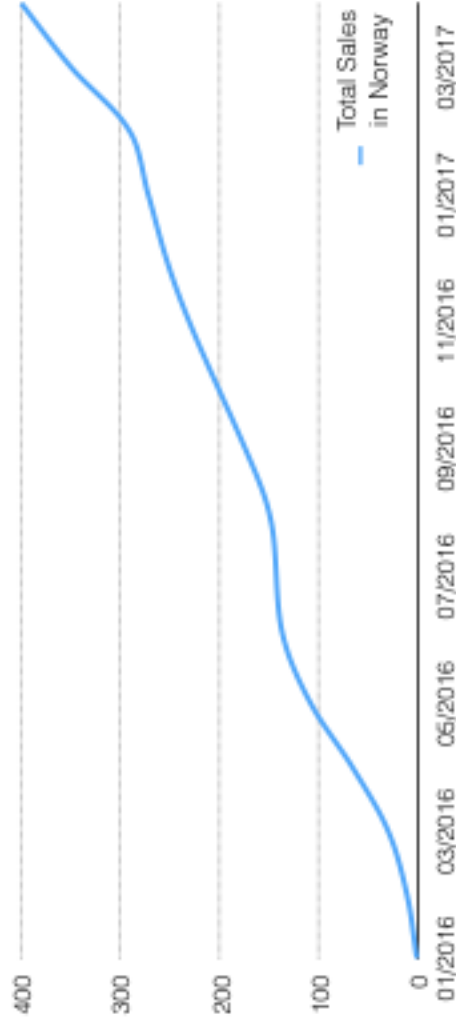

- Cheap acquisition of loan takers
- Customers are home owners with good credit ratings
- Opportunity for selling green finance products

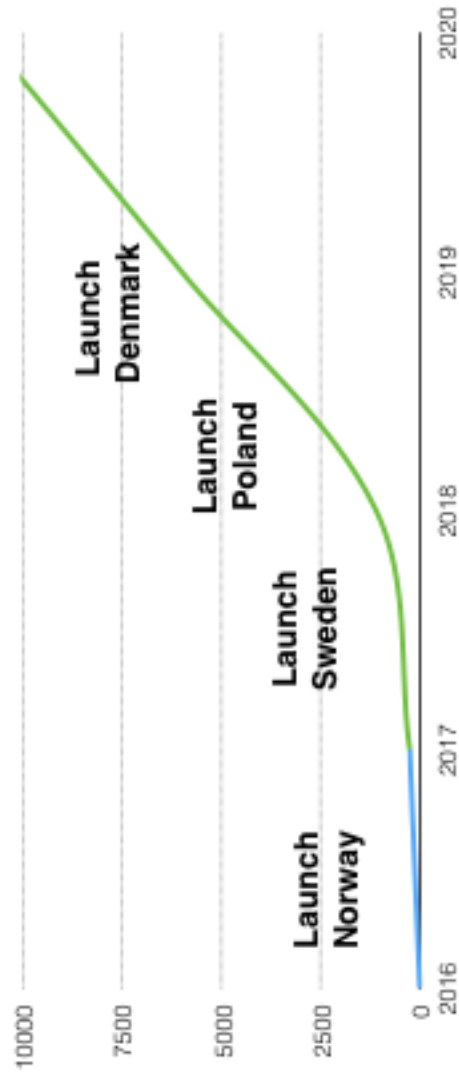

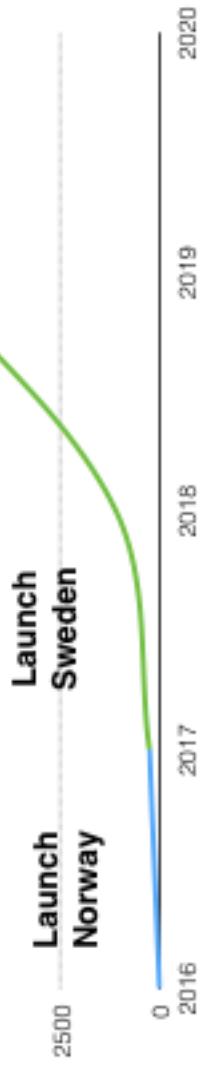

If we can make it here...

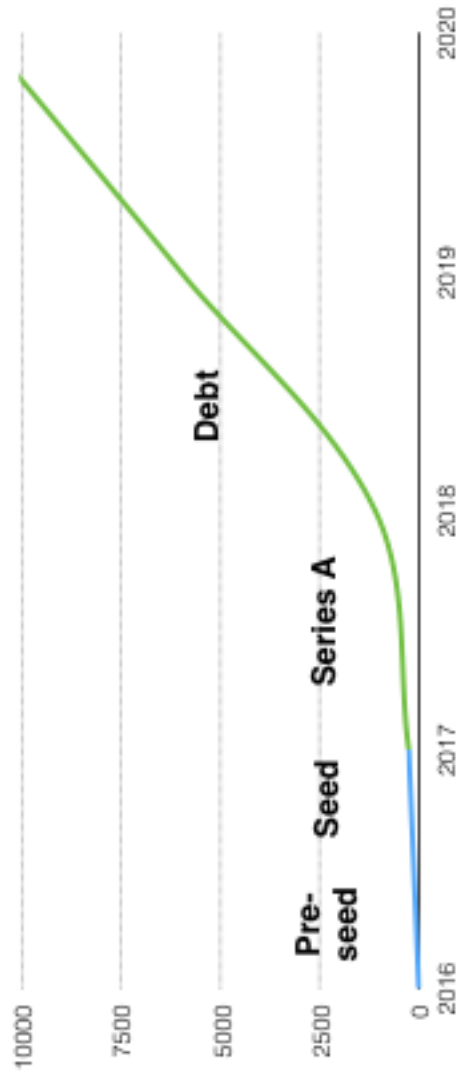

...we can make it anywhere

Getting ready for launching in new markets

Growth requires cash

Join the solar revolution!
